FAQs

1. Who is Visiting Physician Services?

Visiting Physician Services, part of VNA Health Group, is the largest home-based primary care practice in New Jersey. We have been making house calls to older adult and homebound patients for over 25 years. Our mission is to enable patients to stay at home as they age by providing quality in-home medical care.

2. What services does Visiting Physician provide?

Our highly trained medical staff is comprised of board-certified physicians, physician assistants, and nurse practitioners, all with extensive experience in adult and geriatric care. With advanced technologies available right at our fingertips, we're able to provide the most comprehensive approach to both diagnosis and treatment of minor ailments to serious, chronic conditions.

- Physical exams
- Chronic Care Management
- Medication management
- Wound Care
- Palliative and end of life care
- Telehealth Visits
- In-home Diagnostic Testing: Bloodwork, X-rays, EKGs, etc.
- And much more!

Visiting Physician works closely with other home care and visiting specialists and can arrange for the following services if needed: podiatrists, dentists, optometrists, hearing care specialists, durable medical supplies, physical therapy, occupational therapy, speech therapy, visiting nurse services and hospice care.

3. Are house calls covered by insurance and what is your service area?

Visiting Physician accepts traditional Medicare and Horizon Managed Care. Patients, or their supplemental insurance, are responsible for the 20% not covered by Medicare and the annual deductible. We also accept Private Pay. We provide services in Bergen, Passaic, Essex, Union, Middlesex, Somerset, Monmouth and Ocean Counties.
